# Introduction

## About this document

This document describes the changes made in ABBYY FlexiCapture 12 Release 4 Update 3 Patch 1.

## About the product

ABBYY FlexiCapture 12 is the latest version of FlexiCapture, a stable and scalable Data Capture platform that can also be used for creating regional and vertical solutions.

## About the patch

This patch includes fixes and new features for Web Verification Station mentioned below. This release is incremental for FlexiCapture 12 Release 4 Update 3 and includes all the features and fixes from that release and its previous patches.

## Technical Information

Release 4 Update 3	1299/71	12.0.4.910		917309	16.3.163.9	05/24/2023
Release 4	1299/54	12.0.4.678		476916	16.2.361.11	12/13/2023

## Key bug fixes

Bug ID	Description
528219	Handwritten text could be recognized in one line only. Now ICR supports multiline handwritten recognition.
556925, 556944, 555434, 554807, 554572, 555036	An "Internal Program Error during installation: ToolBarAwl.cpp, 158" occurred during installation.
543224	The Installation package contained an outdated .NET Core Hosting bundle in the external components.

Bug ID	Description
549585	Outdated library vulnerability was fixed in Token Management Service.
552848	ExportLabeling command did not work if stations were installed from Developer's Package in FC AdminTools.
552768	An "Invalid file format" error occurred when exporting some types of PDFs.
518332	An error occurred when trying to export source documents in non-PDF format to searchable PDFs.
554612	The Administration and Monitoring console worked significantly slower if there were a large amount of projects in a tenant.
551242, 544578	<p>Field regions were updated incorrectly when merging pages between invoice-like documents on Web Verification Station.</p> <p>A new registration parameter was added to disable auto-merge for batch: "disableAutomaticGroupingIntoSection" – any value set to it will disable auto-merge for a certain working batch.</p> <p>A new web.config key was added for Web Verification Station. It allows disabling auto-merge in a given FlexiCapture 12 installation:</p> <p>Section: &lt;appSettings&gt; Key: &lt;add key="DisableAutomaticGroupingIntoSection" value="true" /&gt;</p>
	Microsoft ReportViewer 2015 Runtime is no longer required for building the reports in Administration and Monitoring console.
