ABBYY Vantage 2.7 Release Notes

About ABBYY Vantage

ABBYY Vantage is a comprehensive intelligent document processing (IDP) platform that provides AI-powered cognitive services, as well as pre-trained and trainable skills that can ‘understand’ business documents and extract actionable data and insights.

ABBYY Vantage is a no-code / low-code platform that makes today’s digital worker and processes smarter and empowers the new citizen developer to accelerate digital transformation initiatives and expand automation to new processes in a fast and simple way, making an immediate impact on business results and customer experience.

To facilitate the exchange and use of Vantage skills and other technology assets, including connectors, demo apps, and custom activities, ABBYY offers a Marketplace to its customers, partners, and the wider public. The ABBYY Marketplace can be accessed at <https://abbyy.com/marketplace/>. The ABBYY Marketplace is designed to share knowledge and solutions, as well as increase re-use to accelerate implementation and reduce effort. Assets acquired from the ABBYY Marketplace can be used in ABBYY Vantage via the Vantage Skill Catalog.

About this release

In this Vantage release, we have resolved security vulnerabilities and fixed several functionality issues. We have also addressed issues related to skills.

The Key enhancements section describes updates to the product’s functionality.

The Bug fixes section contains a description of the issues that have been fixed in this release.

Key enhancements

Improvements to Encryption Standards

The following enhancement has been made to improve encryption standards:

- ABBYY services now use FIPS-certified encryption modules.

Bug fixes
