657812	
629476	Vulnerability fix - DotNet (Nuget)Security Update for Newtonsoft.Json packages and Chart.js upgrade
661469	

Notes:

Some existing FlexiLayout templates may rely on legacy behavior and may be impacted by the fix provided in this release to handle Optional first found element behaves like Required. To preserve backward compatibility, the fix can be disabled using the flag **FirstFoundGeneratorNullHypothesisFix**.

Configuration Steps:

1. Registry Configuration

Path: [HKCU\<AppKey>\DAForms]

String: "FeatureFlags" = "-FirstFoundGeneratorNullHypothesisFix"

Example: [Computer\HKEY_CURRENT_USER\Software\ABBYY\FlexiCapture\12.0\DAForms]
"FeatureFlags"="-FirstFoundGeneratorNullHypothesisFix"

2. Environment Variable Configuration

- Environment variable (system variables):
- ABBYY_OCRT_DAFORMS_FEATURE_FLAGS = -FirstFoundGeneratorNullHypothesisFix

This restores the old behaviour.
